

Boric Acid Powder

Palm International's Boric Acid Powder is a weak acid of boron often used in surface finishing, flame retardants, glass, ceramics or as a precursor to other chemical compounds.

Palm's Boric Acid is a white powder designed for industrial applications. It is made to demanding specifications and is subject to stringent quality control standards and testing.

Store in a cool dry well ventilated area away from foodstuffs.

Concentration

56.25% - H_3BO_3

Appearance

White Powder

Contaminants

Measured in ppm

Analysis:

Parameter	Specification
Boric Oxide	> 56.25%
Assay/Purity	> 99.92%
Iron	< 4 ppm
Chloride	< 5 ppm
Sulfate	< 300 ppm

Shelf Life

If kept in a cool dry area in an unopened container, Boric Acid has an indefinite shelf life.

Packaging

25 Kg Bag

Storage / Safety

Store in a cool dry ventilated area as a dry acid. Handle powder as an acid.
