

Cobalt Sulfate Crystal Tech

Cobalt Sulfate has many industrial applications, including use in storage batteries, electroplating baths, and synthetic inks. The product is also used in the preparation of pigments. Cobalt pigment is common in porcelains and glass. Cobalt Sulfate can also be used in the manufacture of other cobalt salts. Use as an additive to soils and animal feeds is also common.

Cobalt Concentration
>20.5% by weight

Appearance

Red crystals

Insolubles

<0.03%

Contaminants

Mg	<20	ppm
Fe	<20	ppm
Cu	<20	ppm
Cr	<10	ppm
Zn	<10	ppm
Pb	<10	ppm

Packaging and Handling

Material is packaged in 20 kg bags.

Containers should be properly sealed, stored and shipped in a manner as to minimize moisture intrusion.

Shelf Life

Unlimited

Certification

Supplier shall submit a Certificate of Analysis for each shipment.
