Palm International's Liquid Nickel Sulfate 4.5 is specially produced for the demanding electroless nickel, surface finishing and industrial markets. LNS 4.5 is a reduced nickel concentration of Palm’s LNS 134. It is the purest form of LNS available commercially and is manufactured to demanding specifications from carefully selected raw materials. LNS 4.5 is subjected to stringent quality control standards and testing.

Store and handle as an acid solution in a cool ventilated area away from foodstuffs. Keep containers tightly closed.
